

I would like to comment on the NAB's petition 04-160 and urge you to reject it. I am a multiple subscriber to XM radio and just love it. My husband and I spend alot of time in remote areas that do not tend to receive much or any radio services, so we subscribed to XM radio. We support XM radio's right to broadcast everything, including it's traffic and weather channels, and to provide us with the kind of programming we feel we deserve. Thank you very much for your consideration in this matter.
